WHO WE ARE

Hello *World.*

A digital agency for premium brands.

Empowers ambitious companies to bridge the gap from digital presence to intelligent execution. We engineer custom AI agents, high-performance web and mobile platforms, and scalable SaaS solutions built for growth. Tech-First: Leveraging cutting-edge architectures to transform complex technical hurdles into seamless operations. Product-Driven: Designing intuitive, user-centric software that your audience adopts effortlessly. Measurable ROI: Delivering tailored innovation with a hyper-focus on driving clear, bottom-line profitability.

01

DIGITAL STRATEGY

Positioning, narrative, and roadmaps built for growth.

02

WEBSITES & E-COMMERCE

Custom, multilingual, conversion-oriented platforms.

03

SEO & SOCIAL MEDIA

Multilingual visibility across the channels that matter.

04

FUNNELS & CRM

HubSpot-native pipelines from lead to closing.

OUR ROLE ON THIS PROJECT

The strategic partner who designs, builds and operates the digital commercial engine of K Films & Oasis Studios.

Independent · Strategic · Digital-first. We work with a select portfolio of premium brands seeking a lasting commercial architecture rather than one-off campaigns.

STRATEGIC VISION

Two brands. *One* commercial engine.

Distinct yet complementary — K Films carries editorial credibility; Oasis Studios carries operational depth. Together, they cover the full value chain of a shoot in Morocco.

HOUSE ONE · PRODUCTION

K Films *Morocco*

A production house founded by Khadija Alami — feature films, documentaries, shorts, and production services for international partners. The corporate B2B voice of the group.

HOUSE TWO · STUDIO & SERVICES

Oasis Studios *Morocco*

Studio spaces, equipment rental, technical services and — soon — an e-commerce interface for consultation and online ordering. The operational voice of the group.

SYNERGY · ONE ECOSYSTEM · SHARED PIPELINE

DIGITAL DIAGNOSIS & OPPORTUNITY

From a *digital reference presence* to a digital lead generation machine.

TODAY · DIGITAL REFERENCE PRESENCE

A credible signal, *not yet a machine*.

- i.* A K Films Morocco corporate site — founded by Khadija Alami — that credibly conveys the production heritage.
- ii.* A structured offer: **feature films, documentaries, shorts** and services for international productions.
- iii.* A solid B2B narrative — but a **digital presence under-utilised** as a commercial asset.
- iv.* No unified digital logic between K Films and Oasis Studios today.

TOMORROW · DIGITAL LEAD MACHINE

A *digital conversion engine* at scale.

- i.* Redesign both websites to turn consultation into **qualified digital demand**.
- ii.* Deploy a full **digital sales funnel** — SEO, social, lead capture, nurture.
- iii.* Centralise everything in **HubSpot CRM**: qualification, pipeline, follow-up, reporting.
- iv.* Establish a multilingual footprint to address international markets from a single signature.

*The credibility exists. The narrative exists. What is missing is the **digital commercial instrument** that connects them.*

BRAND ARCHITECTURE & SYNERGY

Can we *guarantee* the words we want to own in the digital space?

The strategy is to make six words the involuntary association every prospect has with our two houses — every search, every scroll, every click reinforcing the same idea.

01

Reassure

The digital signal of a serious, credible production house.

04

Attract

SEO, social & content that pull the right audience in.

02

Prove

Case studies, references, results that speak louder than adjectives.

05

Convince

A narrative architecture that makes the choice obvious.

03

Convert

Every visit is engineered to become a qualified demand.

06

Deliver

A HubSpot-connected pipeline from first click to closing.

OUR COMMITMENT

To turn these six words into
measurable digital signals —
search rankings, engagement,
qualified leads, closed deals.

Every deliverable in the following slides is designed
to serve one — or several — of these six ambitions.

WEBSITE 01 — K FILMS MOROCCO

A *B2B corporate* website engineered to convert.

A living platform showcasing the production heritage of Khadija Alami — designed as a *strategic foundation*, then continuously enriched with content, sections and editorial modules as the strategy evolves.

01**EDITORIAL FOUNDATION**

Home, About, Services, Productions, Why Morocco, Contact — the seed of a broader corporate architecture that will grow with the strategy.

02**DEDICATED CRM + HUBSPOT**

The website carries its own built-in CRM, connected to HubSpot to unlock the full marketing power of the platform.

03**MULTILINGUAL · 3 LANGUAGES**

English, French, Arabic or Spanish — third language to be confirmed with the direction.

04**CONVERSION-FIRST**

Forms, lead capture, downloads & contact flows — every touch designed to feed the pipeline.

Structure furnished as a starting foundation — the site is designed to be enriched with additional pages, editorial modules and sections as the strategy scales.

WEBSITE 02 — OASIS STUDIOS MOROCCO

Studio, services & *e-commerce*, at the service of production.

A dedicated platform to *present the studio* — its spaces, equipment, rentals and technical services — with a native e-commerce logic.
A structural foundation, designed to expand as new services come online.

01

STUDIO SHOWCASE

Spaces, stages, equipment, technical services — a rich, expandable catalogue built to grow with the offer.

02

E-COMMERCE LOGIC

Online consultation and ordering — with online payment scoped to be finalised in a subsequent phase.

03

DEDICATED CRM + HUBSPOT

Native CRM connected to HubSpot — every quote request enters a qualified commercial pipeline.

04
